

Thank you for viewing our poster presentation at the Conference for Global Transformation. We appreciate your attention and engagement with this vital topic.

Climate Actions:

I. Petitioning governments and people of influence

Evidence suggests that increasing public pressure on politicians and other change-makers can shift political and legislative conversation towards quick and decisive action.

If you feel inspired to write to people of influence in your community or country to encourage them to take potent action to slow and reverse the effects of climate change, please feel free to download, amend and use the example letter here.

II. Survey on Potent Climate Actions

We are conducting a survey of people's views on the ten most potent climate actions to limit global warming to a 2°C increase. These actions are outlined in Project Drawdown:

<https://www.drawdown.org/solutions/table-of-solutions>

The survey results will inform ongoing climate action advocacy work. We would appreciate your taking the time to complete this survey: [Potent Climate Actions survey](#)
